Warranty and Returns Policy

Demo Pumps Pvt. Ltd. · Document WR-02 · Version 1.0, effective 01-Apr-2026

1. Warranty period

We guarantee every product against defects in material and workmanship for the period below, counted from the invoice date.

Product group	Warranty (months)	Notes
Gear pumps (GP series)	12	Seals and bearings included
Trochoid pumps (TP series)	18	Longest pump warranty
High-pressure pumps (HP series)	12	Only with a 10 micron (or finer) return filter
Hydraulic motors (HM series)	24	Longest warranty in the range
Spare parts and seal kits	6	From the spare part's own invoice date

2. What the warranty does not cover

• Normal wear of seals, bearings and gears after the warranty period.

• Damage from dirty or wrong oil, dry running, or pressure above the catalogue maximum.

• Pumps opened or repaired by anyone other than our service team or an authorised dealer.

• Transport damage after the goods left our factory (claim with the transporter or insurer).

• Consequential losses such as machine downtime or lost production.

3. How to return a product

• Step 1 - Ask for a Return Material Authorisation (RMA) number within 15 days of finding the defect.

• Step 2 - Send the product with the RMA number, the invoice number and a short fault description.

• Step 3 - Our quality team inspects it within 7 working days and sends an inspection report.

• Step 4 - If the defect is covered, we repair or replace the product free of charge, or give a credit note.

4. When we give a credit note

A credit note reduces the amount the customer owes us. It is issued only against an existing invoice, and it reverses the GST charged on that invoice for the returned value.

Reason	Credit note value	Approved by
Sales return - defective product under warranty	Invoice value of the returned items + GST	Quality Manager
Sales return - wrong product supplied by us	Invoice value of the returned items + GST	Sales Manager
Rate difference - price on the invoice higher than agreed	The price difference x quantity + GST	Sales Manager
Goodwill (outside warranty)	Up to 50% of the item value	Sales Head

Approval limits: a Sales Manager may approve credit notes up to INR 50,000 each; above INR 50,000 the Finance Head must also approve. A credit note is issued within 10 working days of approval.

5. Debit notes

A debit note increases the amount the customer owes us, for example when the invoice price was lower than the agreed price, or for extra freight the customer asked for.

6. Contact

Quality and returns desk: returns@demopumps.example - phone +91 00000 00000 (Monday to Saturday, 9:00 to 18:00).
